Subject Fw: Animas River fish data

Barry, I will forward several emails from the Division of Wildlife electro-fishing results. I have not been able to create any tables or charts tracking changes over time, and I think a subsequent email I will send has the lat/long for the locations. You or Megan could take a look at making such a chart, but make it a slightly lower priority for now.

As for a statement from DOW about the CC sources creating the fisheries impacts, I may have to still chase that down.

Sincerely,

Sabrina Forrest

Subject: RE: Animas River fish data

Sabrina,

I've attached a spreadsheet of fish sampling summaries from the Animas River beginning at a site above Swansea Gulch. The data are sorted by Elevation (highest to lowest) site then sample date. If there are any questions, feel free to call.

Sabrina,

I've passed your request to our biologists for comment. I'm in the process of importing all 2010 field data, so it will be forthcoming as an update to the initial data.
